GIVING BACK

About thirty years before my time
Martin fought without using crime.
Rosa wouldn't get up to give up her seat
And this is what started most of the heat.
Martin formed boycotts and they sure did work
But in this process a lot got hurt.
Now a days people don't realize what they've done,
They fought in the battle till they knew they had won.
Look in the past at all they've done for you
Give back to them as they gave to you!
Don't let life pass without giving back
Stick to your dreams like a needle to a haystack
Give back to them as they've given to you
To show your appreciation by doing the things you do

CONGRATULATIONS TO THE CLASS OF 2000

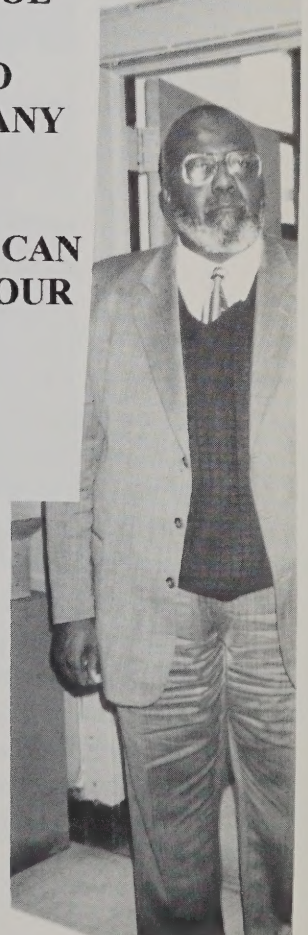

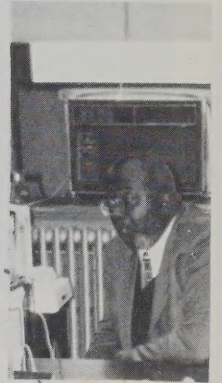

"Good Morning"

MR. DANIELS PRINCIPAL

THE SUCCESSFUL COMPLETION OF YOUR MIDDLE SCHOOL EXPERIENCE, DEMONSTRATES A MEASURE OF DETERMINATION AND PERSEVERANCE. THESE ARE TWO CHARACTERISTICS THAT WILL TAKE YOU THROUGH MANY STRUGGLES IN THE YEARS TO COME.

HIGH SCHOOL WILL BE A GREAT CHALLENGE, BUT YOU CAN MEET THAT CHALLENGE IF YOU WORK HARD. ENJOY YOUR YEARS IN HIGH SCHOOL.

YOU HAVE BEEN A SIGNIFICANT PART OF VAILSBURG MIDDLE'S MOVE INTO NEW IMAGE-NEW ATTITUDE III.

"The 8th graders
know I'm not
going to use a
microphone."

MRS. BLAMO VICE PRINCIPAL

"Now you know I'm
not going to talk
over you."

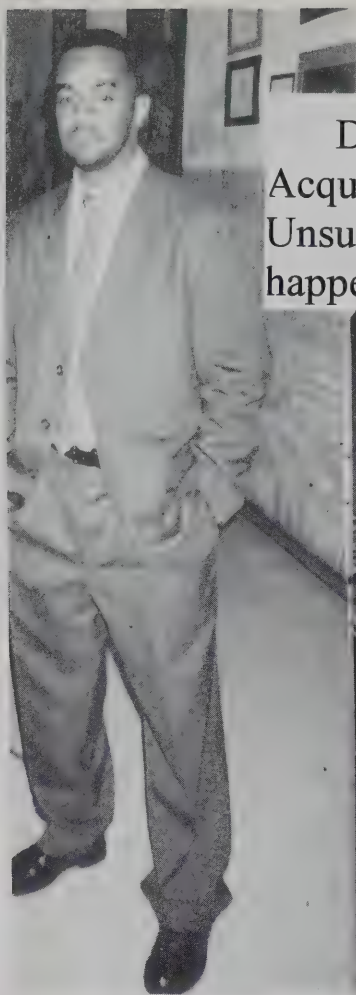

Dear Graduates,

As you embark upon a new phase in your life during this new millennium you will be faced with many challenges. You are no longer the future generation waiting to unfold, but you are the present generation shaping the future. We at Vailsburg Middle School have tried to help prepare you for the next segment of your life, but life can be so uncertain at any given time. Live to be the best, strive for success and excellence. Never limit yourself because much of your potential is yet untapped. You are a very special group of young people to me. I've seen you happy and I've seen you sad. I marvel at the maturity that some of you have gained. I will never forget your expressions, laughter and joy on the first day of our "Love Project." Please know that you are special and loved. I will never forget your graduating class. Continue to work hard and never forget that the sky is the limit only if you have limited imagination. Reach beyond the sky and become all that you can be. I love you all!

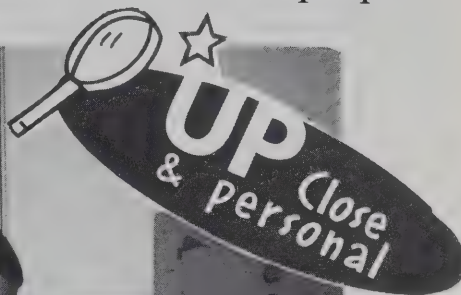

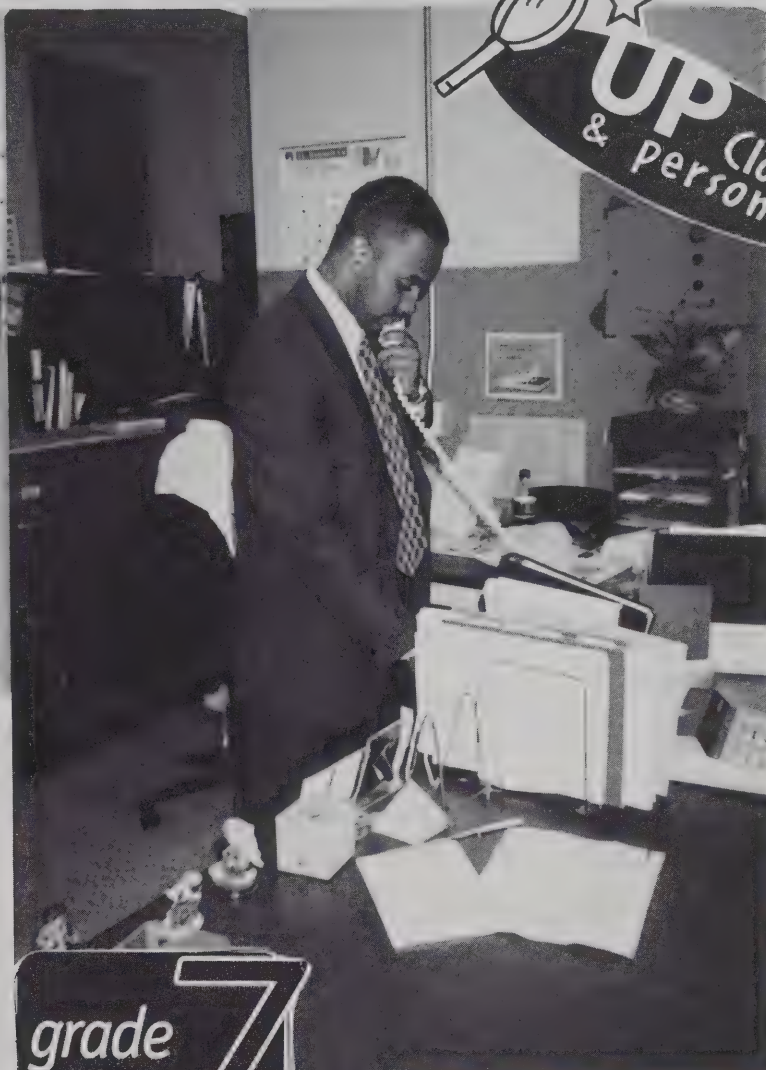

Mrs. Jacquelyn Blamo
Eighth Grade Vice Principal

To The Eighth Grade Graduates

Do not waste the years ahead of you, time waits for no one. Acquire the knowledge to control your destiny. Remember Unsuccessful people make excuses, successful people make it happen!!!!

MR. Tony Motley

Vice Principal

"Get A Pass"

Vice Principal MR. KOPACZ

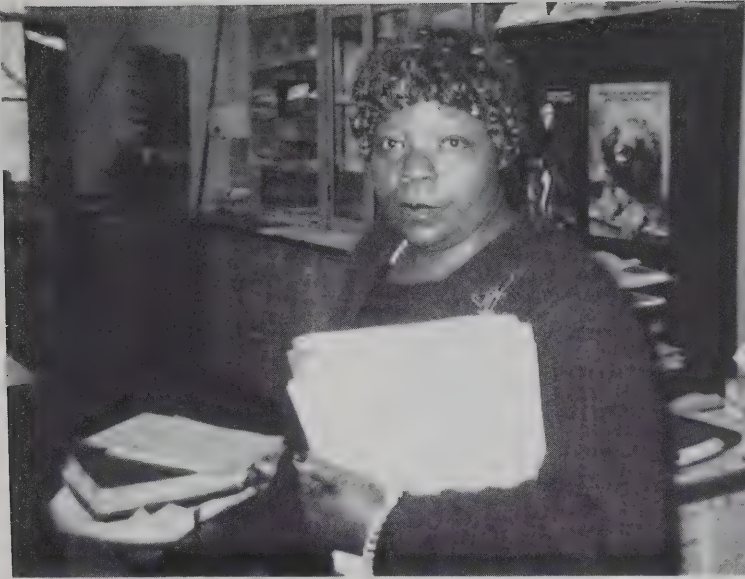

Dear Graduates,

First of all, and rightfully so, congratulations! Please remember your graduation from Vailsburg Middle is only the first step, you are beginning a lifetime of success. You have been prepared well by your dedicated and loving teachers. Coupled with the love and proper guidance of your family, you truly have every opportunity to obtain success in every wall of life. Your next four years are casual. Use them wisely, make the right choices and decisions. At times it will be very hard. You must, keep going, your future depends on that. I will always be here for advice and guidance. I will expect you to do the right thing.

Well, you don't have to worry about "3 days" from me anymore. You are too mature now. Enjoy your years in high school and also profit highly from them. Good luck and I sincerely wish personal success to everyone of you.

Your VP,
Mr. KopaCz

As we embark upon the new millennium, you are on the threshold of many new choices and ventures. In this technological society, you can and must arm yourself with the education ammunition to combat any problems that you will encounter.

The education process is a life long odyssey peppered with innumerable learning experiences, temptations, obstacles, detours, adventurous undertaking, pitfalls and the like. It is imperative that you focus on your destination and complete your journey.

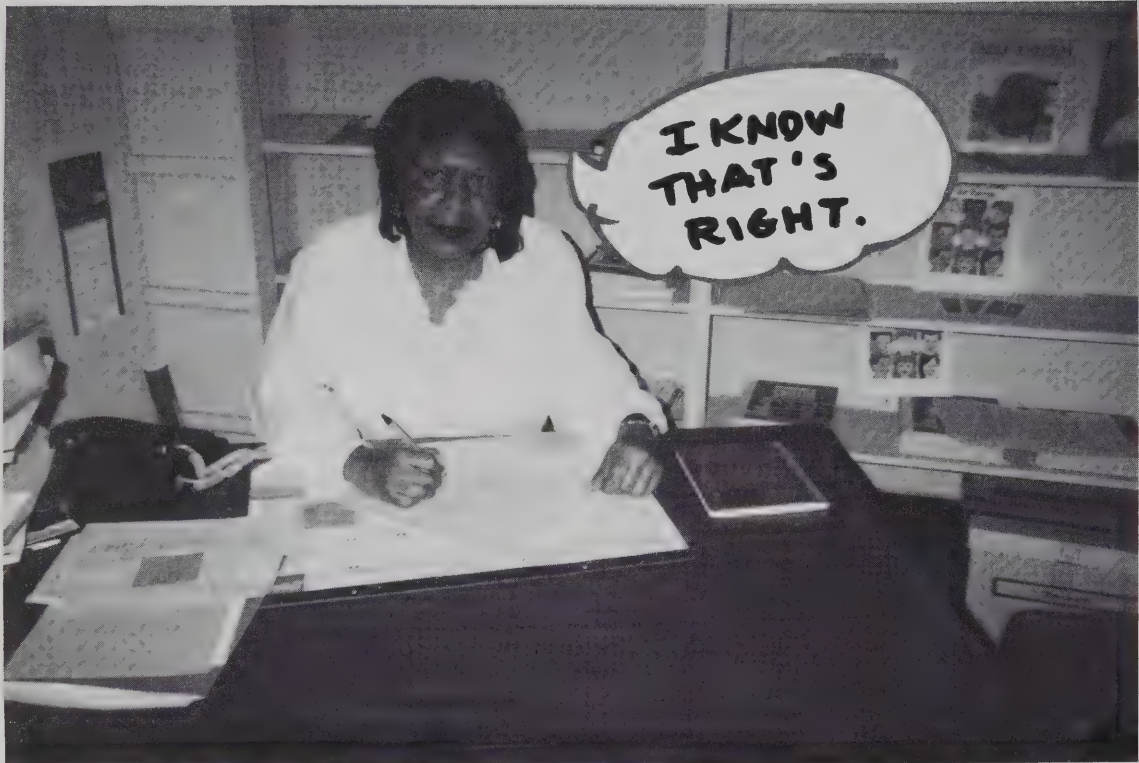

Remember that you have the right to attend a drug-free school and not be surrounded by violence. If you have problems, you have the right to seek treatment and confidential counseling. I'm sure that you can quickly enumerate many more rights; however, don't forget that along with rights comes responsibility. You must take care of your body, mind and spirit. Develop high moral principles and the courage to live by them.

As you grow in size, grow in character and ability; respect the rights and feelings of others. Be honest with yourself and get good examples. Perform work to the best of your ability. Your success or failure in life will be determined by the amount of time and effort that you put into your education quest.

Finally, always remember to honor your family, your elders, the school staff, and the second family, the community in which live.

Ms. Dorothy Yellow-Duke
Interim Vice Principal

CONGRATULATIONS!

THE WOMAN IN THE SNOW

The woman in the snow
She had some where to go
So she started to rush
With a silent, quite baby
She had a little sick baby
That was crying like crazy
It was freezing cold

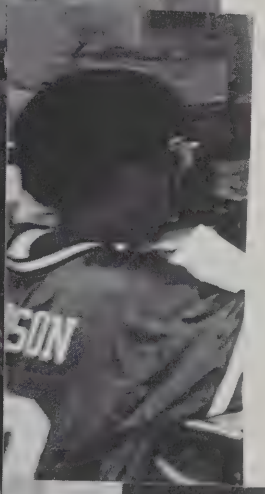

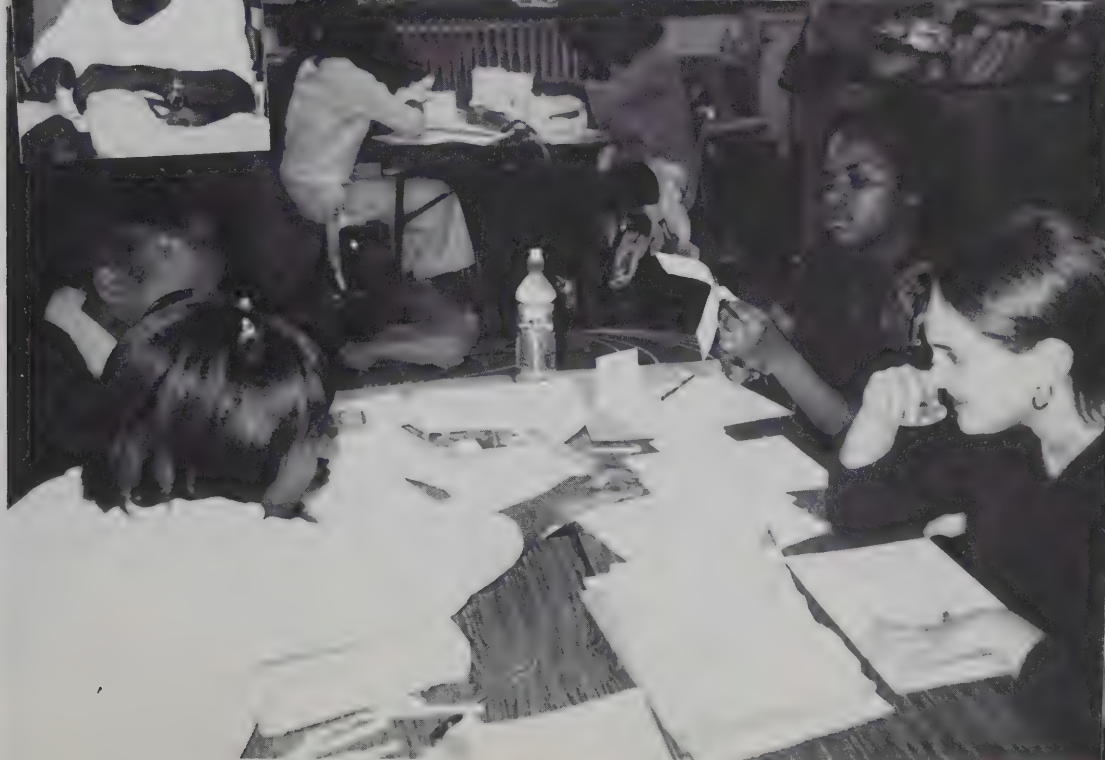

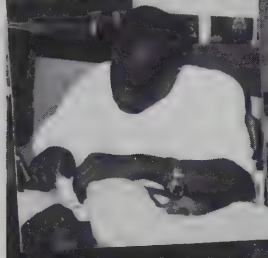

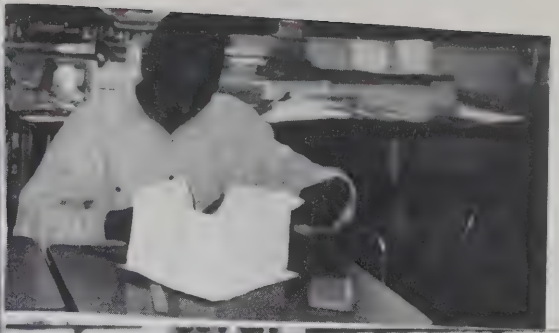

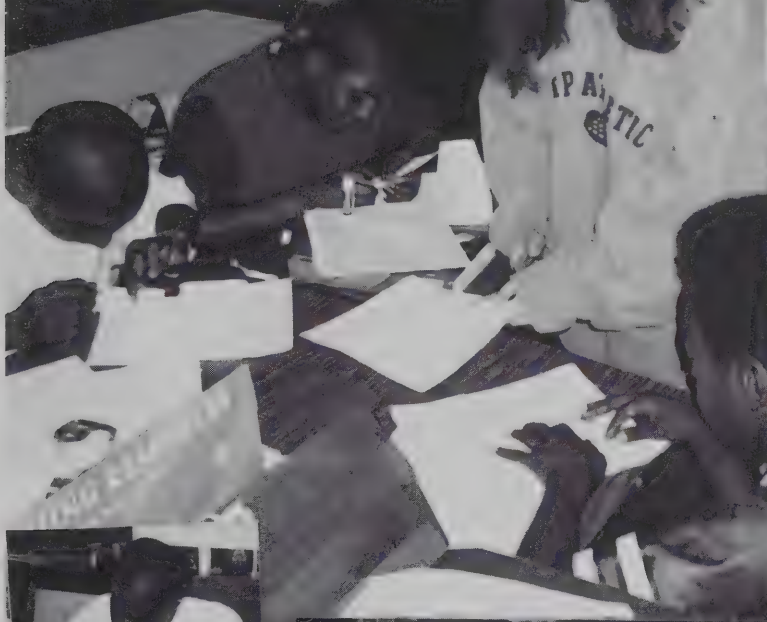

The baby started wheezing
The Mean bus man would not
Let her on the bus for free
So heart felt crush
She had no money just please
Suddenly she felt just lonely
Forever she and her baby
Were a ghost.

Never ever did they come talk for
The show host.

Holding Time

From the past,
Right to the future.
I had my chance,
And now it's gone.
The clock kept ticking...
But my time ran out.

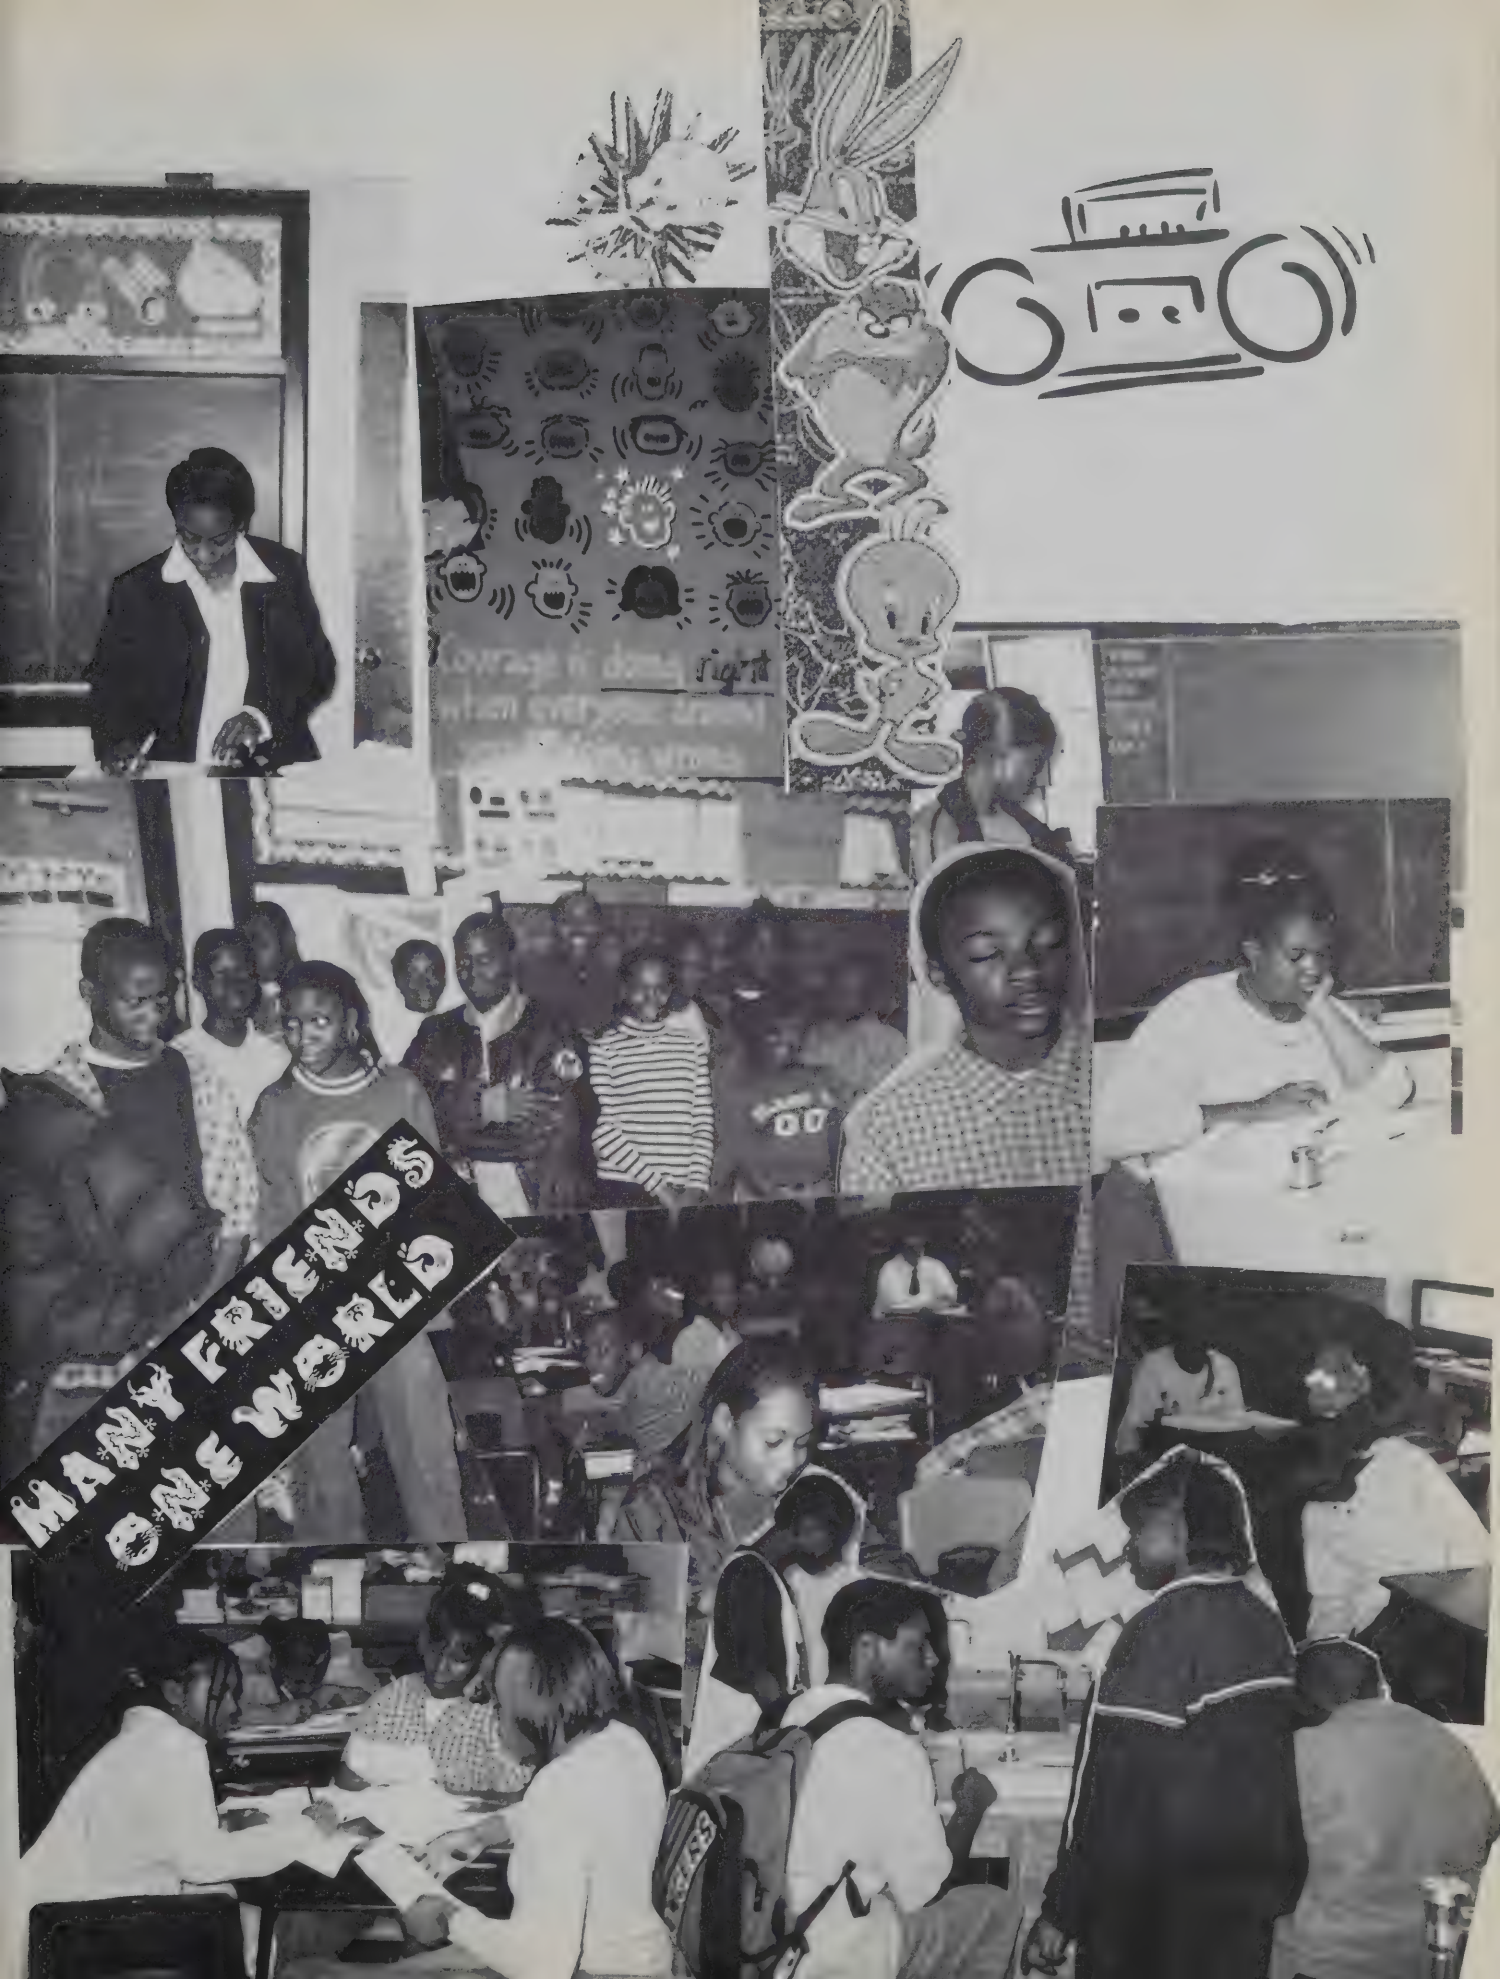

I searched inside myself,
To find freedom.
My ever-lasting love,
Floating in clouds.
The clock kept ticking...
But my time ran out.

The thought of succeeding,
Filled my body,
Like a herd of sheep.
The clock kept ticking...
But my time ran out.

Now it's time for college,
And I won't give up,
The clock is still ticking,
And my time is now.

If I Had 2000 Wishes

If I had 2000 wishes I would wish for peace on this earth and that no one would be homeless. My second wish would be for myself, and my family to be the riches family in the world. I wish that children would be happy were ever they went and everyone got along nicely. I wish that I could fly and had magical powers to do what ever I wanted to. I would also wish most of all that I would go back in time and change every thing wrong that happen. Everyone would have everything they ever wanted and more.

Success comes easily for no one

However, its rewards make the hard work worth while.

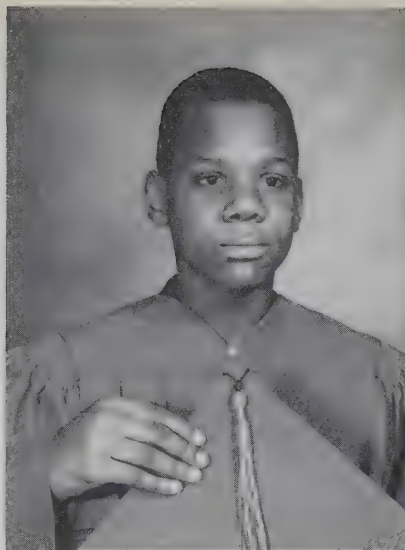

High School is your last opportunity to grasp the tools you need to succeed in life. In High School you must demonstrate independence, self reliance, the ability to deny temptation, aggressively peruse your goals; develop high expectation for yourself, sharpen your academic skills, volunteer in the community, show compassion towards others and with all of this have some fun!

This is a great mix for success!

What A Summer

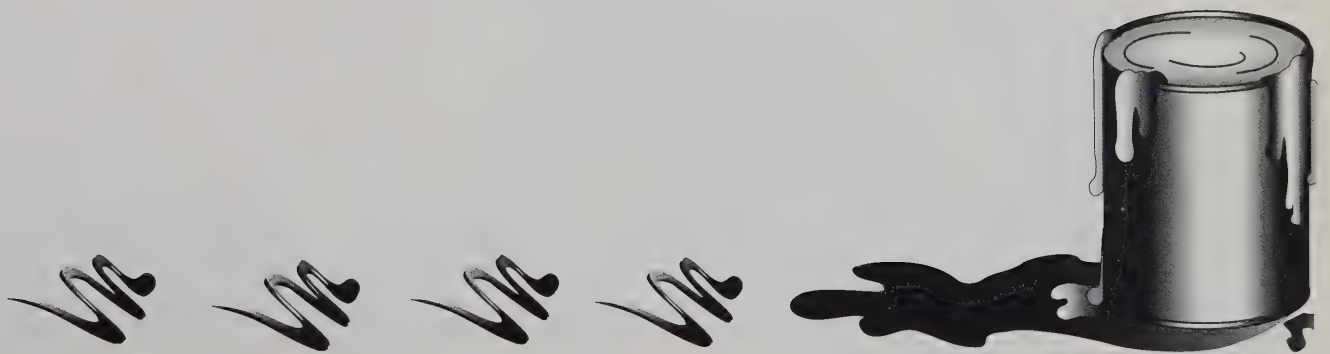

***This summer its going to be me and my crew,
Doing what we want to do.
We'll be sucking on ice pops,
And that isn't where the fun stops.
On our way to Hershey Park,
We'll call our parents because it's getting dark.
The next day we'll hike up to Rocky Mountain.
We'll bring our own water fountain.
This hot summer,
Won't be a bummer,
This summer it will be me and my crew,
Doing what we want to do.***

Thomas Edison

The Father of Invention With over 1000 patents to his name, Thomas Edison brightened our lives with the light bulb in 1879. He also gave us the microphone, phonograph and sound for motion pictures!

Inquiring Minds One of the most creative thinkers in human history, Albert Einstein taught us new ways to understand space, time and gravity. He even won the Nobel Prize for Physics in 1921. Our modern day Einstein, Stephen Hawking leads current research into the building blocks of our univers

SPREADING THE WORD

It used to take weeks for news to cross the country. But today, speed rules! In fact, we're so obsessed with our instant communication that some schools have even had to ban pagers and cell phones.

everything.com! Whether it's shopping, news, banking, or e-mail, the World Wide Web grows bigger and more vital to our lives everyday. First developed by Tim Berners-Lee to link scientists around the world, today's Web offers something for everyone, thanks to pioneers like Steve Jobs and Bill Gates. This year's proposed AOL/Time-Warner merger promises even greater cyber possibilities.

From Lab to Lamb

In the 50s, geneticists Francis Crick and James Watson discovered the coiled DNA strands we call chromosomes. Just this year scientists successfully mapped out one of those chromosomes. Understanding DNA led to the cloning of animals such as Dolly the sheep, taking science into controversial territory. Where do we go from here?

Guys in Gore-Tex? Probably not – it hadn't been invented in 1953 when Sir Edmund Hillary and Tenzing Norgay won honors for being the first to stand atop Mount Everest. But wait a sec! News just in suggests that someone else might have reached the summit first – 29 years before them!

That's One Cool Critter!
In 1997, a nine-year-old boy found an entire woolly mammoth frozen in Siberia. This year scientists began defrosting the 20,000 year-old creature using guess what? Blow dryers! With luck and a little genetic know-how this ancient breed just might walk the earth again!

Cheers and Tears Fans bid farewell to three top athletes this year. Michael Jordan (who led the Bulls to six NBA championships) has left the court and become part owner of the Washington Wizards. Wayne Gretzky ("The Great One"), who took the Edmonton Oilers to four Stanley Cup Championships, has ended his 21-year career. And John Elway (the winningest quarterback in NFL history with 148 victories) retired in May of '99.

GREAT Moments

A Thrill of Victory... The year was filled with record breakers. Muhammad Ali won the first boxing title in the world. He was the first African American to win the title. In the Davis Cup, the Australian won the title. In the Olympics, the first American to win the gold medal was the first American to win the gold medal. And the 1980 U.S. Olympic Hockey Team won the gold medal. And the 1980 U.S. Olympic Hockey Team won the gold medal.

THEY'RE DA BOM!

It's tough to become the top athlete in your sport...but how about two sports? Or three? Mildred "Babe" Didrickson won two track and field gold medals in the 1932 Olympics. Then in golf, she won the U.S. Open three times. Babe also earned top honors in tennis, baseball, basketball, swimming and marksmanship.

Perfect 10s! At the 1976 Olympics, Romania's Nadia Comaneci became the first gymnast to earn a perfect score of 10 on the parallel bars and beam. Then, in 1984, Mary Lou Retton scored a 10 in the vault and became the first woman to be featured on a Wheaties® box!

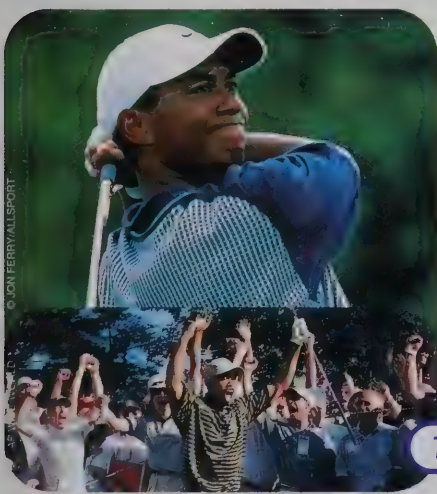

You Go Girls! The world sat up and took notice this year as the U.S. team earned women's soccer an official place in history and in our hearts. 90,000 fans packed the Rose Bowl (and 40 million watched at home) to see top athletes like striker Mia Hamm and goalie Brianna Scurry blow the Chinese team away. When Brandi Chastain scored the penalty kick that won the game, boys, girls, men and women alike became sworn women's soccer fans forever!

Extreme Madness

People Can Fly... and America thinks it's awesome. Extreme sports have grabbed the attention of Mainstream, U.S.A. In fact, NBC broadcast the Summer Gravity Games from Providence, Rhode Island this year. Thrill-seeking athletes risked injury in freestyle motocross, wakeboarding, street luge and aggressive in-line skating. Then the Winter Gravity Games 2000 pounded the powder in Mammoth Lakes, California; and again we got to watch them on network TV.

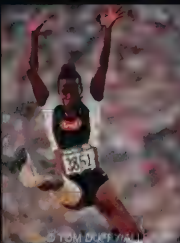

Tiger on the Prowl
Tiger Woods has wowed us again by becoming the first golfer in 25 years to win eight PGA tour events in one season. But who says big cats prowl alone? This year Tiger proved himself a great team player too, leading the Americans to a Ryder Cup victory. Go get 'em, Tiger!

Olympic Glory

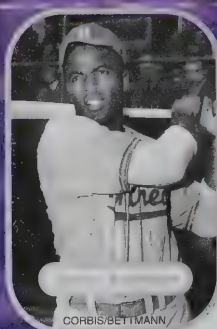

Jackie Joyner-Kersey just may be the greatest female athlete ever. She took home golds at the '88 and '92 Olympics, and a silver in '84. Her sport? Seven of them. Her main event was the heptathlon; in other words, she did tons of leaping, sprinting and throwing. Talk about explosive power!

Batter Up! If you're picking a baseball Dream Team, this should be your starting line-up. Think about players like Hank Aaron, baseball's all-time home run king... or Joe DiMaggio with his 56 game hitting streak in 1941. These champions set world records and then broke them; and they tore down a few barriers along the way too. They belong in a league of their own.

It's Outta Here! Fans flocked to ball parks around the country to watch Mark McGwire and Sammy Sosa battle it out for the second year in a row, but McGwire's '98 record of 70 homers still stands. Big Mac ended the season with 65 and Sammy with 63. They came pretty close!

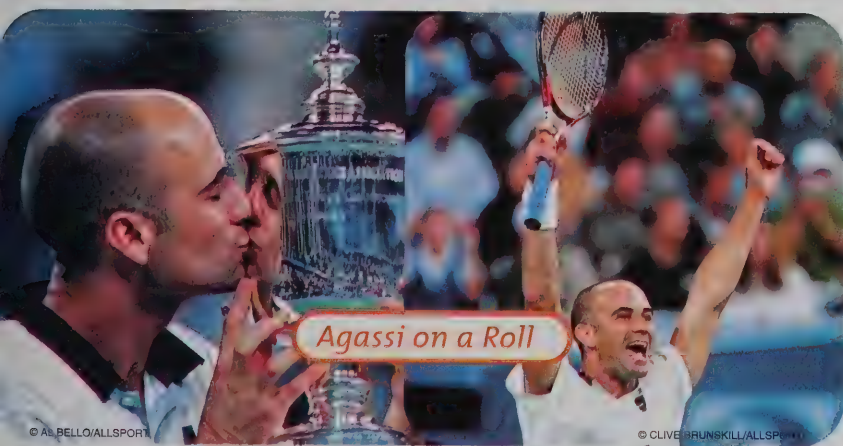

Super Sized! We've come a long way since the days of Super Bowl I in 1966. The Green Bay Packers and their legendary coach Vince Lombardi would never have guessed that the St. Louis Rams winning Super Bowl XXXIV would be watched by 130 million people.

Simply The Best This year the New York Yankees won their second World Series in a row, sweeping the Atlanta Braves in four games. The win gave the Yankees 25 World Championships in their proud history. In '99, the NHL's Dallas Stars took home the Stanley Cup, while the NBA title went to the San Antonio Spurs.

Tennis Anyone? This year Andre Agassi fought his way back to the top of the men's tennis scene, winning the French and U.S. Opens. He ended the year ranked #1.

A month later she went on to beat her sister Venus for the first time in the finals of the Grand Slam Cup in Munich, Germany. Hollywood Heroes

Star Gazing Hollywood has given us many stars, but only a few live on to become legends. Charlie Chaplin, Lucille Ball, and Marilyn Monroe are three official superstars known around the world. Today's hottest director, Steven Spielberg has told us many of our favorite stories, including the T-Rex terror of *Jurassic Park*. He even introduced the adorable E.T. to seven-year-old Drew Barrymore!

Movies We Love

How Did They Know? Walt Disney imagined that a talking mouse could make us laugh. Dr. Seuss thought a cat who knew poetry would last forever. Jim Henson staked his fortune on puppets with a sense of humor. And the memory of Charles Schulz will always remind us that happiness is a warm puppy.

THE Year's Hottest Stars

Teen Scene on Screen This year we not only watched the ultra-cool kids like Katie Holmes on *Dawson's Creek*, we also got to hang with *Freaky and Geeks*. On the big screen, our faves included Ryan Phillippe, Buffy's Sarah Michelle Gellar, Jennifer Love Hewitt, who spun off to *Time of Your Life* and SNL veteran Adam Sandler.

A Long Time Ago...

In 1977 Luke, Leia and Han blasted onto the screen in the first *Star Wars* movie. This year, die-hard fans camped out for a place in line to see the premier of one of the highest grossing films ever, *Star Wars, Episode 1: The Phantom Menace*.

The Beat Goes On

Jump, Jive and Wail From the powerhouse trumpet of Louis Armstrong to the hottest sounds today, music remains the signature of each generation. Big band and swing tunes got the kids shakin' it long before Elvis brought rock & roll to The Ed Sullivan Show in 1956. The country loved it, of course, and even welcomed those crazy long-haired Beatles in the '60s; so the rock & roll fever continued. Motown greats such as Aretha Franklin inspired groups like the Jackson Five. And we all know what a Thriller ride that turned out to be!

THE Latin Explosion

¿Hablas Español? The Spanish language is heard more and more in American pop tunes. We see it in grocery stores everywhere and on the street, too. As the Latino/Hispanic population increases, so does our love affair with the culture. Salsa (the sauce) now sells better than catsup, and salsa (the dance) is all the rage. And let's face it... we love to groove to music by Latino performers like Jennifer Lopez, Enrique Iglesias, Christina Aguilera and Ricky Martin.
